

# Be audacious in impact

When was the last time you  
**thought the unthinkable,**  
**defined the unfathomable,**  
or did what no one else has dared to try?

At Deloitte, we're creating bold new frontiers  
for our clients and communities. Our roar  
echoes across India and beyond. So, bring  
your unique self and rise louder and leap  
further than ever before.

## Analyst | Technology & Transformation: Engineering, AI & Data | Open to Pan India | Quality Engineering

- **Job requisition ID :** 93147
- **Location:** Open to Pan India
- **Entity:** Deloitte Touche Tohmatsu India LLP

### The team

Today, business and technology innovation are inextricably linked and the demand for technology enabled business transformation services is rapidly growing. Deloitte's global network of technology practitioners help clients identify and solve their most critical information and technological challenges. With market-leading expertise in 17 industry segments, superior business transformation capabilities, and deep technical expertise, our global network of more than 35,000 technology practitioners create unmatched market offerings to solve our clients' toughest business issues.

### Your work profile

Professionals in the Technology Consulting group offer both advisory and engineering services that provide clients with comprehensive solutions to help them better manage the critical business of information technology.

We accomplish this mission through the continued development of people in our Technology Consulting Service Lines –

- Enterprise Technology and Performance
- Test Strategy and Automation

### Key skills required:

- Candidate should have understanding in test automation using Python/Java
- Understanding of Engineering Concepts, Web Services & Integration engineering
- Understanding of software development lifecycle, engineering methodologies, QA terminologies, processes and procedures using different methodology
- Basic understanding of Agile and DevOps concepts

**Note:-** We are delighted to share that, along with the full-time role, you will have the opportunity to begin your journey with us through a voluntary virtual internship from January to June (with stipend). This will be followed by a mandatory 3–6 month in-person internship from July to December, after which you will be onboarded as full-time employees. We believe this phased approach will give you valuable exposure, continuous learning, and a smooth transition into your professional career

## You bring you

That's all we ask. And in return, we'll create an enabling and respectful environment. That includes reasonable accommodation for your unique needs.

## Your bold odyssey starts here

Our story starts with your success: Experience excellence in an environment that is meritorious, respectful, collaborative, and empowering. One that is a catalyst of 360-degree happiness for you and your loved ones.

Get right-skilled for tomorrow: Get equipped to fuel transformative change and be the best in the industry. Don't just learn new skills, but be the engine of innovation, with clutter-breaking solutions and practices.

Power the nation's growth story: We're Indian-owned and led and working towards India's future. Our team spans and creates impact for the country, well beyond its urban centres. We move ahead along with the communities in which we operate, thereby giving you a profession with a strong sense of purpose.
